

My trip to Belgium

By Reuben Walcott

I enjoyed going round Thuin, with the other English students, and observing the moments, such as the Belfroi.

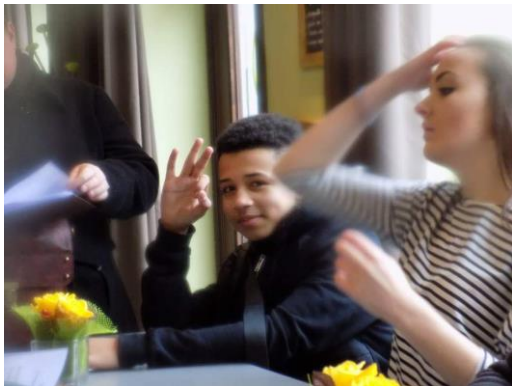

I enjoyed observing the beautiful landscape and environment of Thuin, with the English students.

I enjoyed leaving the school, with the other English students, and going round the various shops in Thuin, such as the chocolate shop and the opticians.

I also enjoyed all the activities we did with the Belgian students, such as the visit to Moins, after school, where we visited many shops and the Cathedral, and the night when we went bowling.

I also enjoyed our visit to the capital of Belgium- Brussels, we took the train, and the journey was fairly long. In Brussels, we visited places and monuments, such as the European parliament building, the King's office and a famous shopping square.
